Is Your Senior Dog in Pain?

Maybe. Maybe not. At some time, every dog owner recognizes that his faithful and beloved companion is getting old. A senior in the dog world. Questions begin to surface, including:

- What are the exact laboratory tests I should have my veterinarian do, and how often?
- Should I consider hospice care for my dog?
- How can I deal with the “anticipatory grief” I feel when I know my dog is dying?

Canine wellness expert, Jennifer Kachnic, has assembled 20 canine professionals to assist in your quest ... delivering an array of possibilities to make your dog more comfortable, and yes happy, in his senior years. Featured contributors include:
